

ANNUAL REPORT

EXTERNALLY FUNDED RESEARCH

BRIGHAM YOUNG UNIVERSITY

1 SEPTEMBER 1985 - 31 AUGUST 1986

Prepared by the Office of Research Administration
C-37 Abraham Smoot Building

Brigham Young University

Office of Research Administration

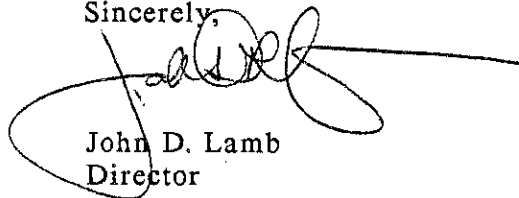

F. LaMond Tullis
Associate Academic Vice President
D-367 ASB
Brigham Young University
Provo, UT 84602

Dear Dr. Tullis:

The Office of Research Administration's *Annual Report on Externally Funded Research* is herein submitted for the year 1985-86. The report briefly describes the current organization of our office and provides detailed information on externally funded research programs and proposals at BYU. For the first time, we include detailed information in this year's report concerning royalty income from licensed technologies.

We continue our commitment to assist BYU faculty in developing strong research programs in all areas.

Sincerely,

John D. Lamb
Director

JDL:cld

SUMMARY

This report summarizes the activity of faculty members, departments, colleges, research centers, and institutes participating in Sponsored Research at Brigham Young University.

It also reports on services provided by the Office of Research Administration. The mission of this office has traditionally been one of individualized service to relieve researchers at BYU of many administrative details associated with the procurement and maintenance of research funding, including all areas of pre- and post- award functions. It is hoped that the quality of these services has been instrumental in the encouragement of research activity at BYU.

New focus has been added to our office with recent changes in personnel. Programs and policies are being implemented to coordinate the university's patenting and licensing of technologies and software. A major goal of the office is to make these activities self-supporting, and to increase the benefits that can accrue to the university by improvements in policy.

During the 1985-86 academic year, 143 separate research awards were made to faculty members and \$14,912,737 were brought into the University to fund research, including \$8,475,638 as grants and contracts, \$2,080,034 as royalties, and \$4,357,065 as research-related gifts. These figures represent a 3% increase in the number of awards and a 71% increase in the funding level over the previous year. Research funding came as federal contracts (36%), state contracts (6%), private contracts (15%), gifts (29%), and royalties (14%). During the reporting year, 169 proposals were submitted to various agencies, representing a 4% decrease in proposal submission rate over the previous year. Also, during the year, 84 proposals were rejected.

OFFICE OF RESEARCH ADMINISTRATION

ORGANIZATION

OFFICE OF RESEARCH ADMINISTRATION

I. Organization

The Office of Research Administration serves under the direction of the Office of the Provost and Academic Vice President, Jae R. Ballif, and his Associate Academic Vice President, F. LaMond Tullis. The Office consists of a Director, Associate Director/Grants and Contracts, Associate Director/Technology Transfer, and Secretary, with part-time student assistants as needed.

II. Personnel

Director: Dr. John D. Lamb, Associate Professor of Chemistry

Associate Director: Carol R. Hardman (Grants and Contracts)

Associate Director: Lee R. Phillips (Technology Transfer)

Secretary: Cynthia Daybell

III. Responsibilities

A. Director

1. Represents the University's research programs to research organizations, funding agencies, and other universities.
2. Develops policies and procedures to foster research and to facilitate technology transfer.
3. Administers the university's patents and licensing of technologies and software.
4. Coordinates the preparation of large, inter-collegiate and inter-institutional research proposals.
5. Administers the activities of the Office dealing with the management of grants and contracts.

B. Associate Director/Grants and Contracts

1. Assists the Director in determining direction and policy for the Office of Research Administration.
2. Assists the Director in presentation of workshops and seminars.
3. Monitors office budget and expenditures.
4. Coordinates publicity regarding research awards.
5. Administers sponsored research contracts and grants and certifies all related expenditure documents.
6. Monitors government regulations pertaining to federal contracts and grants.
7. Assigns account numbers and records data on funded awards.
8. Monitors research budget accounts in conjunction with Financial

Services, to assure compliance with agency and university regulations and insure that corrective action is taken to avoid budgetary problems.

9. Prepares and submits closeout documentation as grants and contracts terminate.
10. Negotiates contracts and grants with funding agencies.
11. Assists Financial Services with audits of contracts as required.
12. Has responsibility for management of capital equipment on federal accounts and reports on such responsibility to funding agencies.
13. Maintains office awareness concerning BYU compliance with federal regulations pertaining to the use of human subjects in research.
14. Disseminates information relating to funding trends and opportunities of interest including publication of a monthly newsletter.
15. Maintains up-to-date reference files of funding sources, agency telephone numbers and addresses, and interests of BYU researchers.
16. Assists researchers with budget preparation for proposals, preparation of representations and certifications as needed and coordination of authorizing signatures on required documents.

C. Associate Director/Technology Transfer

1. The responsibilities of the Associate Director/Technology Transfer can be summarized under these headings:

a. Scientific:

- (1) Seeks out and identifies research developments which might be marketable.
- (2) Consults with faculty members concerning the market potential, patent potential, and license potential of marketable technologies.
- (3) Participates in the evaluation of proposed patents and makes recommendations for patents to be obtained.

b. Legal:

- (1) Finds and works with appropriate legal counsel to prepare and submit patent applications.
- (2) Maintains an active file of all current and pending patents.
- (3) Maintains a log of royalties and other incomes and their dispersal.
- (4) Assists the Director in the negotiation of license agreements with off-campus companies and identifies appropriate legal counsel to prepare formal agreements for signature.
- (5) Assists the Director in negotiating royalty agreements between BYU and inventors.
- (6) Is responsible to see that all documents contain appropriate language, although he does not prepare documents himself except in unusual circumstances.
- (7) He seeks legal office approval on all documents.
- (8) He relies on the legal office to insure that the University is properly protected in all documents.

c. Entrepreneurial:

- (1) Seeks out appropriate licensees for University technologies.
- (2) Provides counsel to small business spin-offs in establishing their companies.
- (3) Directs new small businesses to the various federal, local, state, and private organizations which can assist them in finding funding and getting established.

D. Secretary

1. Serves as the receptionist for the Office of Research Administration with specific responsibilities in handling the telephone and mail.
2. Serves as personal secretary to the Director of Research Administration.
3. Prepares and processes forms, reports, and correspondence for the Office of Research Administration.
4. Maintains a log and file of pending proposals submitted to various agencies by BYU researchers.
5. Obtains proper signatures on all documents, reproduces, distributes, and mails research proposals for faculty researchers as requested.
6. Prepares and maintains Federal Time & Effort Reports for students involved in federally sponsored research.
7. Maintains files of research salary payments and associated paperwork for researchers paid from research accounts.
8. Prepares a monthly activity report of proposals submitted, funded, and rejected for the Associate Academic Vice President.
9. Supervises the part-time student clerks.

EXTERNAL FUNDS RECEIVED

EXTERNAL FUNDS RECEIVED

During the 1985-86 academic year, 143 separate research awards were made to faculty members, totalling \$14,912,737. There were 4 more awards made this year than the previous year. Sponsored research funding came from federal, state, and private sources.

In the breakdown of external funds received by college, state support received is included in the private sources (non-federal sources). "Gift" monies include only those gifts used to support research.

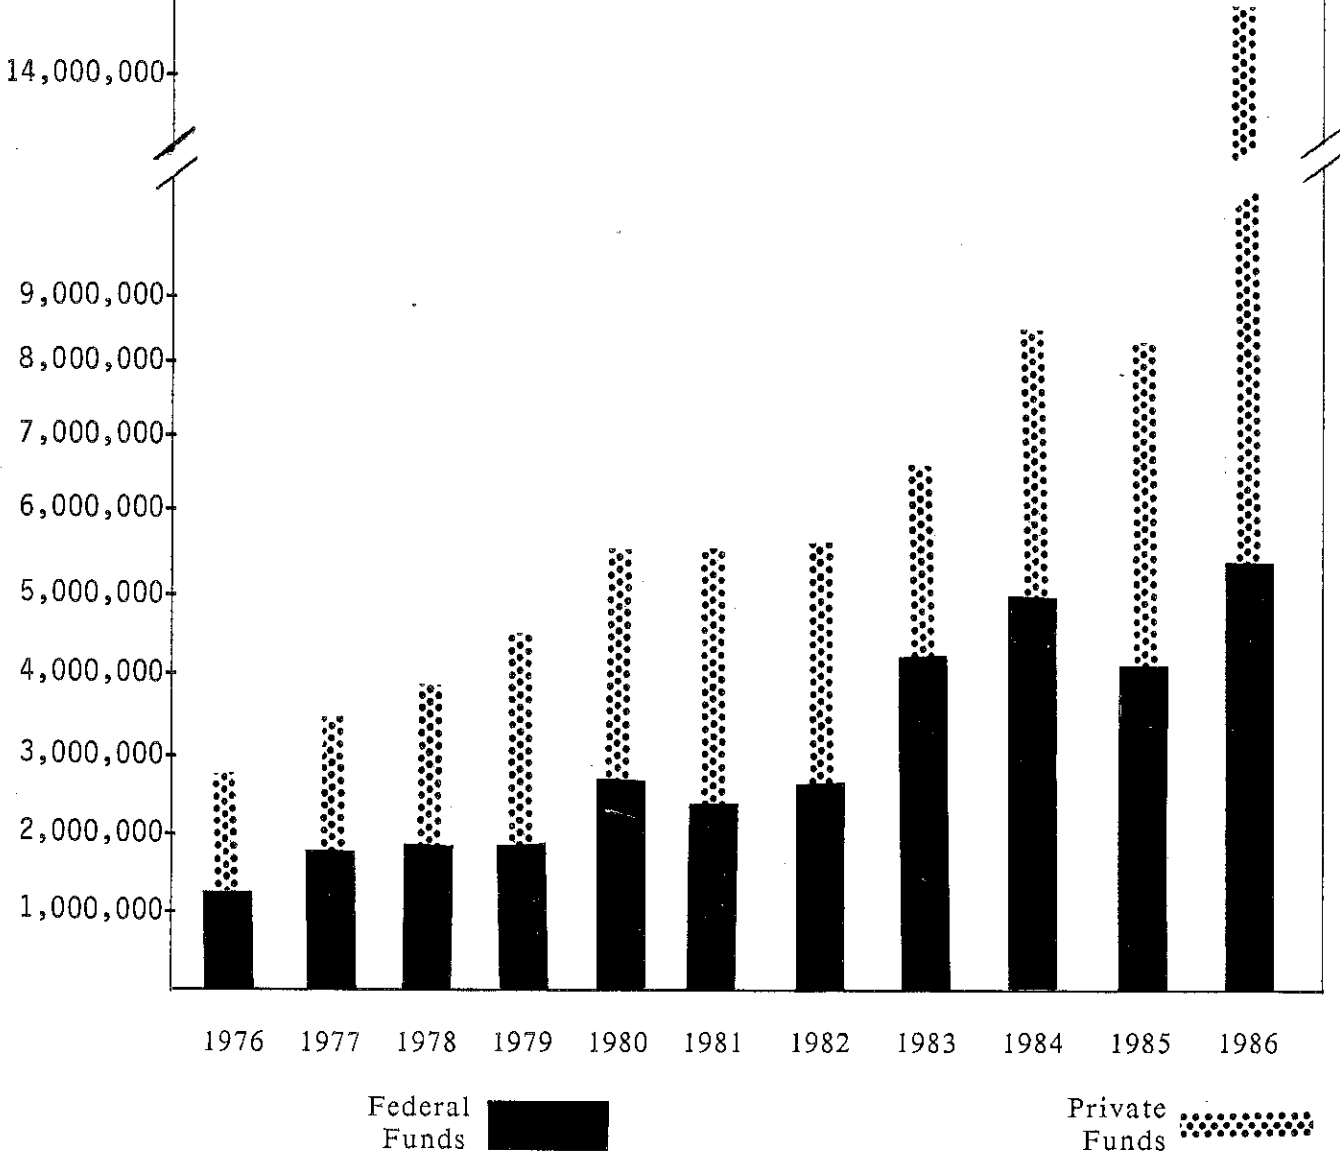

There were 169 proposals submitted during the 1985-86 academic year.

SPONSORED RESEARCH ACTIVITY

(Grants and Contracts)

BY COLLEGE & DEPARTMENT

**SPONSORED RESEARCH PROPOSALS
(GRANTS AND CONTRACTS)**

During the 1985-1986 year, 169 proposals were submitted to various agencies for funding. This was a decrease of seven over the previous year. During this same year 143 contracts were funded, and 84 were rejected.
