2003 Environments for Mentoring Grant Recipients

The grant proposals are first reviewed at the department and college levels. Following those reviews, a group of faculty representing various disciplines across campus gives a final review where they compare protocols to each other based on how well they incorporate the desired goals and elements of a mentored environment. The awards range in value according to the proposal and are given in January to be worked on throughout the calendar year. Final reports are received from the faculty the next year.

Recipient	Title	Dept	College
Ernest Hawkins	Muscle, Fat and Patability profile of Alpaca Carcasses	ND&FS	B&A
Keith Crandall	Heirarchically mentored Research in Molecular Systematics and Bioinformatics	IB	B&A
David Kooyman	Isolation of the Human Follicular Dendritic Cell(FDC) FC gamma R2 Receptor cDNA	M&MB	B&A
David Busath	Structure and function of M2 channels from Influenza Virus	P&DB	B&A
David McClellan	UG Studies in Bioinformatics: Training, Mentoring, and Collaborating...	IB	B&A
Jack Sites	Evolutionary Genetics of Reptiles-Mentoring BYU Undergraduate Students (renewal)	IB	B&A

2003 Mentoring Grant Recipients

This group is selected by a process resembling the faculty pursuit of external research funding. Students prepare proposals for undergraduate research or creative projects and select faculty mentors. A group of faculty and administrators carefully evaluate all proposals and select those deemed outstanding. The \$1,500 grants are awarded in Winter semester and a report on the work is due within a year. These reports are tabulated as the Brigham Young University Journal of Undergraduate Research and Creative Activities, which is published on the Internet under the ORCA homepage (<http://orca.byu.edu>).

2003 University Honors Students

The following students graduated with University Honors. Requirements for graduating with honors include taking required Honors Courses, completing an Honors Portfolio and completing an Honor Thesis. Honors students work closely with their faculty advisors in all aspects of their honors education. The relationship is reminiscent of that between a graduate student and his/her faculty advisor. We congratulate these fine students and their faculty advisors on their accomplishment.
