

Kuali Research

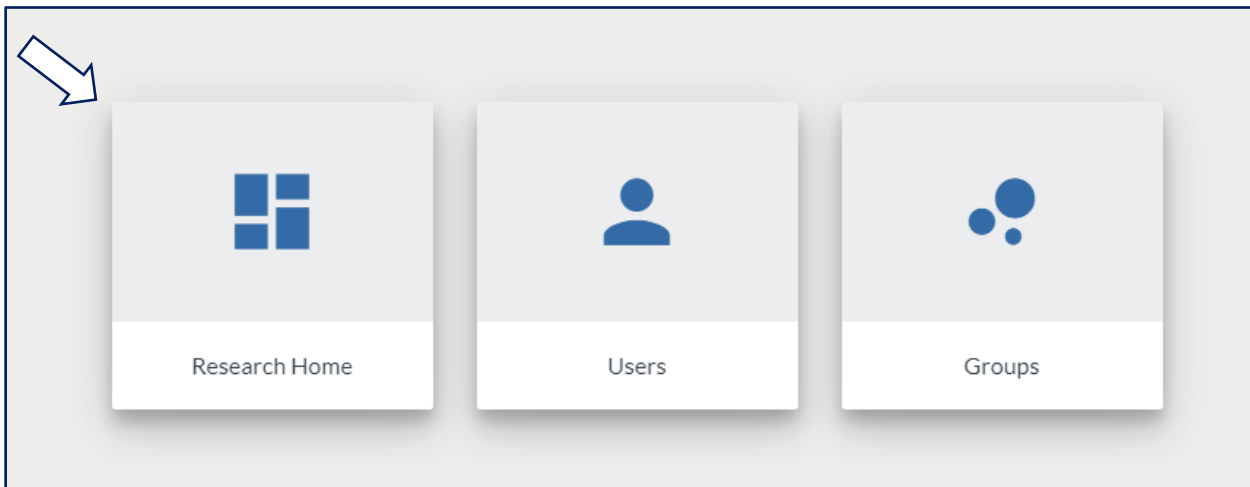

Research Proposals – Getting Started FAQs

How do I get into Kuali Research?

- Are you using the correct URL? BYU also uses another Kuali product – Kuali Curriculum. Sometimes users go to that URL thinking they can access Kuali Research there.
- Kuali Research users can login via this url: - <https://byures.kuali.co/res> or by clicking the **Kuali Research Login** buttons on the RAO/SPO websites, see below (rao.byu.edu or spo.byu.edu).

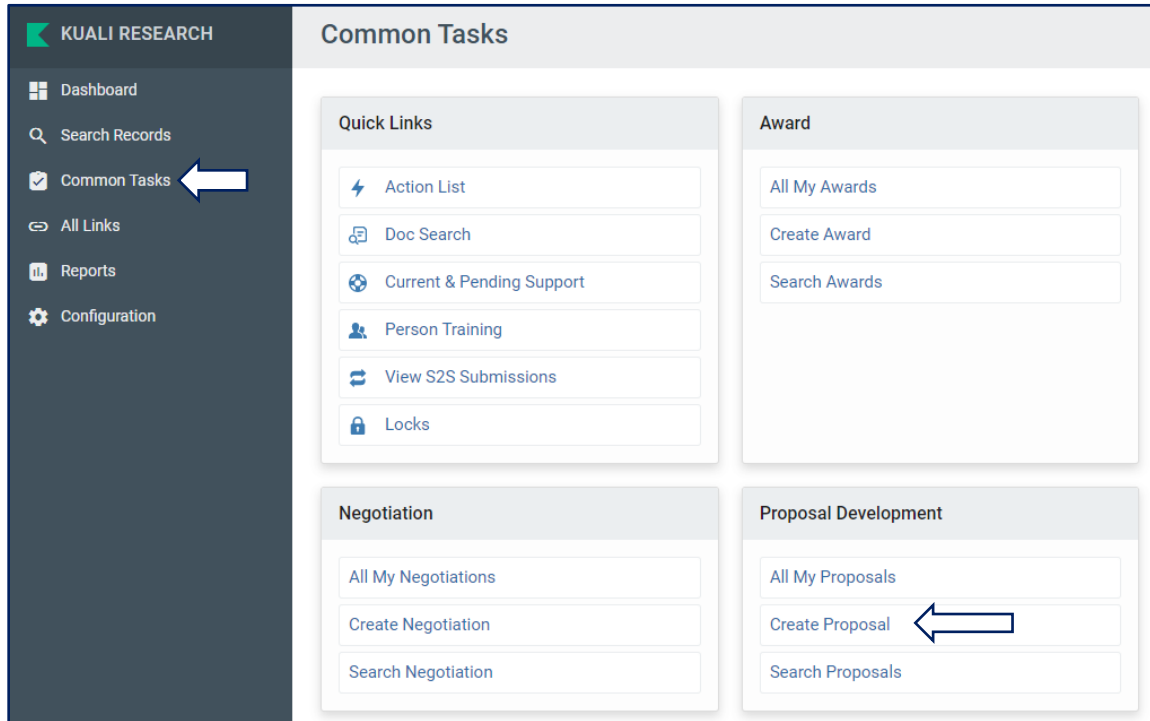

- To open Kuali Research, users should select the **Research Home** box below.
 - Note – this is not always required. Sometimes a user is taken directly to the dashboard after signing in.

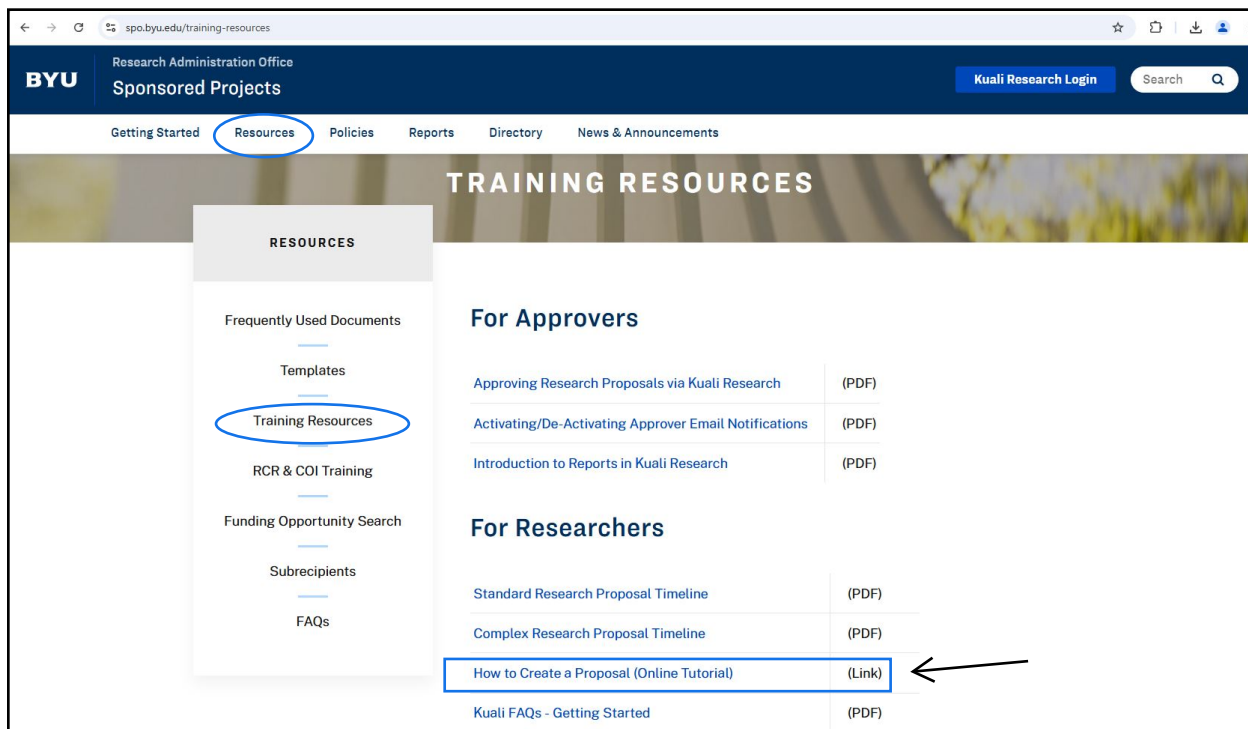

How do I create a proposal?

- Go to the **Common Tasks** screen, then in the **Proposal Development** card, click **Create Proposal**.

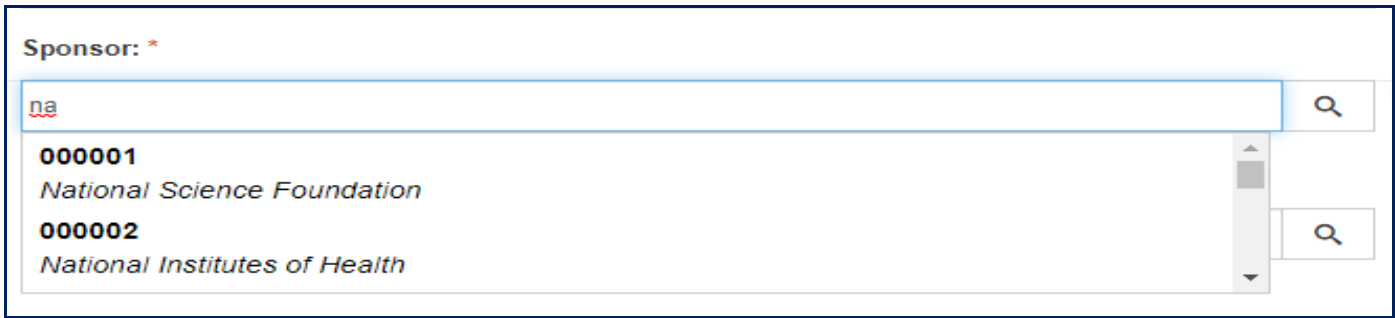

- Then, use the **Online Tutorial** and other resources under **Resources** on our website to help complete the various parts of the proposal. Contact your RAO Sponsored Projects Research Administrator for sponsor/project specific questions.

How do I add the Sponsor to my proposal?

- Start typing the name of the sponsor and then select from the options that appear in the pull-down menu.

The screenshot shows a form field labeled "Sponsor: *". The input field contains the text "na". Below the input field, a dropdown menu is open, displaying two options:

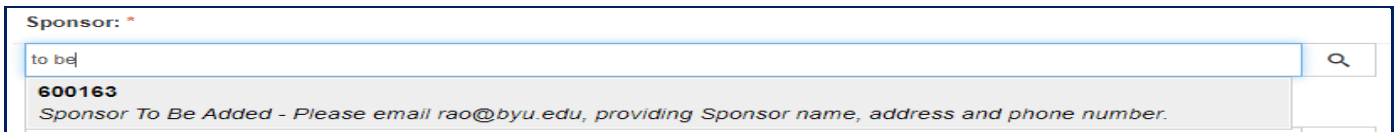

- 000001**
National Science Foundation
- 000002**
National Institutes of Health

Each option has a magnifying glass icon to its right, indicating a search function.

- Users can also use the magnifying glass to search for a sponsor
 - Note: only enter data into one of the search fields.

I don't see the sponsor I need in Kualu.

- Start typing “to be added” and select *Sponsor To Be Added...* as a temporary sponsor placeholder so you can continue in proposal creation.

The screenshot shows a form field labeled "Sponsor: *". The input field contains the text "to be". Below the input field, a dropdown menu is open, displaying one option:

- 600163**
Sponsor To Be Added - Please email rao@byu.edu, providing Sponsor name, address and phone number.

There is a magnifying glass icon to the right of the option.

- Then, as instructed, email rao@byu.edu asking that the sponsor be added to Kualu.
- You will be notified once the Sponsor is added to Kualu and then you can update your proposal.

How do I add myself as the PI?

- The Principal Investigator field does not work the same as the Sponsor field. You must use the **magnifying glass** to look up a person.

Principal Investigator: *

- In the **KcPerson Lookup window** that pops up, only enter data into one of the search fields (usually the last name) and then click **Search** at the bottom.

Where did my proposal go?

- When a faculty member submits their proposal for review, it moves from the **Proposals not routing** card to the **Proposal workload assignments** list at the bottom of their dashboard. You can click the link in **the Proposal Number** column to open your proposal.
 - Note: While a proposal is routing for approvals, no edits can be made, only the attachments may be replaced.
